

## POPE FRANCIS: MUSLIMS and EUROPE

No one needs to be told that the demographic makeup of the continent of Europe has been changing dramatically and rapidly over the past year or so with the influx (in reality in many cases – the invasion) of huge numbers of ‘migrants’.

Many countries have been severely, and again in many cases, adversely affected by the arrival of these people within their borders and across Europe many countries have already erected or are considering erecting fences on their borders to stop this movement of people.

**Pope Francis** has often spoken on these matters and has on occasions visited key locations where these ‘migrants’ have been arriving. Many people have been left scratching their heads when they have listened to his comments on this ‘migration’ question so just what exactly is going on?

My good friend **Shaun Willcock** of **Bible Based Ministries** closely monitors the activities and strategies of **The Vatican** and he has just published a very enlightening article that addresses this very question of why **Pope Francis** is doing and saying what he does on this whole question.

I commend this article to you and it can be accessed on
