

How the Mormon 'Jesus' was conceived

Earlier today I engaged in conversation with two Mormon girls who were doing 'outreach' in Lisburn – 'Sister Thu' and 'Sister Coffman'. Our conversation was friendly and in the course of it I asked them how their 'Jesus' received his earthly body. They replied that it was through the Virgin Mary and the Holy Ghost. They were rather surprised then when I told them their church taught otherwise.

They accepted a ministry card with the ministry web site address and if in God's providence they go to it I hope they will see this article-listing, and if so, if they go pages 6-7 on this link

they will be able to read the quotes I referred to that demonstrate that their understanding of Christ's conception does not line up with official pronouncements by leading Mormon figures including Brigham Young.
