

THE ORIGIN and PURPOSE OF COVID19?

Facebook censorship? APPENDIX added 20/4/20

On Tuesday 14th April I posted a short article to Facebook that was headed '**The Origin and Purpose of COVID19?** In the post I gave the link to a documentary that lasted for about 58 minutes and this is what I said in the post -

The first 40-45 minutes of this documentary are quite scientific and technical so if you want to bypass those, I would certainly recommend the watching of the last 15 minutes which reveal the very worrying conclusions that I believe all nations around the world should take serious heed of.

A total of 14 Facebook friends indicated a reaction to it, 6 posted comments and 6 shared the post on their own Facebook Timeline.

Sometime around mid-morning on Wednesday 15th April, the link to the video 'disappeared' from my post and the same thing happened to the Timelines of the 6 people who had 'shared' it on their own Timelines.

When I discovered this, I posted the following **UPDATE** to my Facebook post –

For whatever reason the video to which I gave a link cannot now be viewed on this thread - if you would like a link to where it can be seen please email me on takeheed@aol.com and I will send you the link

It would appear that Facebook do not allow anything that is critical of the Chinese Communist Party and especially as it relates to the possible origins and purpose of COVID 19.

In my update I mentioned a link that would take folks to see the video that had been removed by Facebook and this is the link –

APPENDIX

28th April 2020

Two other items that have been drawn to my attention and that appear to contribute to the intrigue surrounding the origins and purpose of COVID 19 are to be found on these links –

Well, it didn't take the 'big-brother' censors long to remove that video. It appears that political and health organisations that deal with 'global' matters are today's 'untouchables'.
